

OSU Extension Service Master Gardener™
Speakers' Guild – Washington County
Programs Available (as of 3/15/17)

Composting with Worms (Talk – 60 minutes)

Want to get rid of your kitchen waste and produce great compost for your garden and potted plants? An OSU Extension Service Master Gardener will share tips and techniques for composting with worms. They will cover making a worm bin, caring for your worms, harvesting your compost and trouble-shooting common problems. Actual working worm bin and material to demonstrate the construction of another worm bin are part of the program.

Container Gardening (PowerPoint – 60 minutes)

Spring is finally here and with our occasional sun breaks and milder temperatures we are ready to think about this seasons gardening. Even the smallest patio or porch can boast a crop of vegetables or a garden of flowers in containers. Container gardeners are limited only by their imagination! An OSU Extension Service Master Gardener will share tips and techniques for planning and planting your container gardens. They will cover some basics, dispel some myths and inspire you with container gardening ideas.

Culinary Herbs: More than just Leaves (PowerPoint – 60 minutes)

Fresh herbs bring out the best in our dishes but did you know that for many herbs more than the leaves are edible?

Many produce edible flowers and seeds. An OSU Extension Service Master Gardener will share information that will have you growing and harvesting culinary herbs.

Gardening for Bees (PowerPoint – 60 minutes)

Bees, including honeybees, mason bees and bumblebees, are one of our most important pollinators. Loss of habitat, pesticide use and more have caused stress of their population. An OSU Extension Service Master Gardener will share how you, as a gardener, can make a difference. Topics include types of common bees and their needs, good plant choices and more.

Gardening Made Easy (Talk – 60 minutes)

Still want to garden but need a little help? An OSU Extension Service Master Gardener will share strategies and techniques so you may [continue](#) to garden without injury. Sprains, strains, and aching muscles don't have to be part of your gardening experience. Gain insight on ways to keep gardening safely and maintain a lifelong passion and a healthy activity. Examples of adaptive tools are demonstrated.

Growing Herbs (PowerPoint – 60 minutes)

Growing herbs can be a sensory delight. There are culinary herbs, aromatic herbs and herbs that attract beneficial insects. But considering the high cost of fresh herbs why not grow your own? An OSU Extension Service Master Gardener will share the tips, techniques and plant recommendations for starting your own herb garden. Topics covered will be starting your beds, planting times, maintenance and harvesting. OSU Extension Service recommended varieties will also be shared.

Growing Lilies (PowerPoint – 60 minutes)

We grow many beautiful plants that have 'lily' in the name but the 'true lilies' are truly spectacular. An OSU Extension Service Master Gardener shares tips and techniques to grow these perennials in the

OSU Extension Service Master Gardener™ Speakers' Guild – Washington County

Pacific Northwest. We will explore the abundant varieties of Asiatics, aromatic Orientals, charming Martagons, unique species lilies, as well as the Orienpet and LA Hybrids.

Growing Tomatoes in the Pacific Northwest (PowerPoint – 60 minutes)

Tomatoes are one of the most popular edibles grown. But sometimes our Pacific Northwest weather can make growing them a challenge. An OSU Extension Service Master Gardener will share the tips and techniques that will let you 'grow like a pro' tomatoes. Topics covered are choosing the right tomato, planting times and techniques, fertility, pest and disease management, pruning and more.

Improving Your Soil (PowerPoint – 60 minutes)

We may know that putting some effort into improving and maintaining our soil is going to pay off in the long run by reducing our need for additional fertilizers, supporting healthier plants and creating a more satisfying experience for us as gardeners. But how do we do it? An OSU Extension Service Master Gardener will give you the "dirt" on good soil. Practical tips and techniques on how to improve your soil's texture and structure, the use of compost and mulches, cover cropping and more will be discussed.

Intensive Gardening (PowerPoint – 60 minutes)

Do you want to take your vegetable gardening to the next level? An OSU Extension Service Master Gardener will introduce you to the techniques used in intensive gardening which will help you to produce the most from the gardening space that you have. Topics include techniques to plant densely, vertical gardening, interplanting, succession planting, day length strategies, cultivar choices and more.

Mason Bees (PowerPoint – 60 minutes)

Mason Bees are one of the primary pollinators in our area. Join an OSU Extension Service Master Gardener as they share more about the lives of these amazing creatures and how we can encourage them in our gardens.

Starting Your Vegetable Garden (PowerPoint – 60 or 90 minute versions) (Spanish version available)

Often new vegetable gardeners, dreaming of lush, productive gardens, are frustrated with their lack of success. Don't let that be you! An OSU Extension Service Master Gardener will walk you through the process of starting your own vegetable garden. They will talk about site selection, soil preparation, planting times, water and fertilization needs as well as general garden maintenance. Focus will be on the spring and summer gardens.

Natural Disease and Pest Solutions for Edible Gardens (PowerPoint – 60 minutes)

A garden with no pests, no diseases and no problems! Although it's a sweet dream, it is seldom a reality. An OSU Master Gardener will share information that will help reduce or decrease the chances of developing problems and provide non-synthetic methods for dealing with them if they do occur. Topics will include Integrated Pest Management strategies for pest control and gardening practices that help prevent diseases in your garden.

Year-around Vegetable Gardening (PowerPoint – 60 minutes)

Most vegetable gardeners begin their gardening experiences with spring and/or summer gardens. Expanding your gardening season through the fall and winter can greatly increase your gardens

OSU Extension Service Master Gardener™

Speakers' Guild – Washington County

productively but lengthen the time you can harvest fresh produce for your family and yourself. An OSU Extension Service Master Gardener will lead you through the process of vegetable gardening year around. Topics will include what to plant and when, season extending techniques, when to harvest and more.

Notes:

PowerPoint – Master Gardener will present topic through a PowerPoint program. Room in which program is to be presented must be able to be dimmed. Natural light coming through large, uncovered windows will present a problem in the quality of the viewing. Speaker can bring projector and portable screen as needed.

Talk – No PowerPoint is used. Speakers may bring visual aids depending on the speaker and the topic.
