6	most important: educate the public in best practices through community outreach	7/2/2018 9:16 AM
7	Estalbishing the PCC Garden and partnership with related activities--there is much potential for outreach to the public .	6/30/2018 5:41 PM
8	MGs should only give out scientifically proven info; not what they do at home.	6/28/2018 2:45 PM
9	OSU program activities are mandatory, aren't they? And we are over-extended as a volunteer organization.	6/28/2018 6:20 AM

1	Have been very satisfied with the previous 24 years, but very dissatisfied over the board's decision this past year to close the Demo Garden before we needed to. Contentious - am leaving	7/11/2018 12:32 PM
2	Broke ankle and vol. Postponed!	7/10/2018 8:35 PM
3	As an intern this year I am still learning a lot. Everyone has been friendly and helpful.	7/9/2018 9:15 AM
4	I would be very satisfied if there were more weekend activities (educational opportunities, meetings, etc) to participate in.	7/8/2018 5:48 PM
5	I want to volunteer more, but need to wait until I retire from teaching. I always enjoy my volunteer experiences.	7/8/2018 1:07 PM
6	I think we could do more in teaching at schools and school gardens as well as community gardens. Then I would be very satisfied.	7/7/2018 7:16 AM
7	I no longer really volunteer much with the MGs and consider myself an associate MG. (My upcoming time volunteering at the fair is a fluke.) In 2011, when I went through the program to become an MG, I spent some time on the phones and really disliked it. However, I was able to do some writing and editing for FAQs for the Multnomah MG website in lieu of answering phones and liked that much better.	7/5/2018 3:55 PM

8	While I have some ideas, I need to find the time to expand the Gardening Speakers' Guild services, to involve more MG Interns and develop more unity with Multnomah and Clackamas counties speakers' services.	7/4/2018 8:48 AM
9	My volunteer experiences have been well-organized and educational. My experiences have also given me the opportunity to get to know and make connections with a variety of WCMGA members.	7/2/2018 9:37 AM
10	The ":Boss" keeps changing their minds as to what is necessary to keep certified	6/30/2018 7:13 PM
11	There is a very broad range of activities that MGs can select. I find myself selecting activities for which I feel provide opportunities to outreach to a larger community. If I am dissatisfied it is when I feel that I have taken a not insignificant portion of my time to prepare to deliver educational materials, but there is little MG and public attendance.	6/30/2018 5:41 PM
12	There is tons of information available for MG's to share with the public and many veterans willing to help share their experiences and knowledge with others plus it's a fun & we'll managed organization.	6/30/2018 2:07 PM
13	I would like to be able to learn more from my fellow master gardeners.	6/30/2018 1:53 PM
14	Again, being new to Washington County I cannot fairly answer this question.	6/28/2018 2:45 PM
15	It is heart-based, practical community service	6/28/2018 12:05 PM
16	My primary volunteer activity is phone clinics. It has been disheartening to see so many empty and one-person shifts. The quality of the information we provide and satisfaction with volunteering suffer as a result.	6/27/2018 11:20 PM
17	Information and education has always been available with the Master Gardners due to the fact that they are willing to share their knowledge.	6/27/2018 10:15 PM
18	Organization seems to be heading in a new direction not compatible with the reasons I joined.	6/27/2018 9:33 PM
19	Came across folks who seem to have private agendas (eg business goals) and try to subvert agendas to meet their goas.	6/27/2018 9:26 PM
20	I have been concerned regarding the leadership of the WCMGA during the last few years.	6/27/2018 9:11 PM

1	I teach for the Seed 2 Supper program. The level of questions and commitment to the program from the people who are there to learn, lets me know that it's an important class for them.	7/8/2018 1:07 PM
2	In addition to being on the board, I volunteer at the phone clinic and at one of our gardens. Interactions with the "clients" has been very positive with clients frequently stating how grateful they are for the advice we give.	7/2/2018 9:37 AM
3	The MG brand name is familiar, though not entirely understood in terms of mission and resources that we have to offer.	6/30/2018 5:41 PM

8	People are seeking the advice of someone with more experience or expertise. They may or may not follow our advice but seem to appreciate the input and collaboration of MGs.	6/28/2018 6:20 AM

9	I think we provide a unique service where clients can receive information about home gardening that is based on research and not on myths or marketing.	6/27/2018 11:20 PM
10	Especially in my volunteer wok at school gardens.	6/27/2018 9:33 PM
11	Quality repetition over multiple exposures will have lasting impact. I feel my contribution is but one part if that.	6/27/2018 9:26 PM
12	The MG program keeps us informed of plant issues as they come up, very important to share that with the public	6/27/2018 9:14 PM

4	What about a tour of plant nurseries between Salem and Canby (there are so many)? We do this for another organization that I belong to. Two ladies have room for about 10 or 12 in two to three cars which convoy to the nurseries. In the middle of this we stop and have lunch. Here was our schedule this year. Drive to N&M Herb Nursery - 11702 Feller Rd NE Hubbard, OR (opens at 10:00) This nursery closes it's doors on July 4th for the season. (Takes 25 minutes from Jeannette's) Enjoy the plants for about 30 minutes or until we are all done Drive to Hydrangeas Plus - 6543 S Zimmerman Rd Aurora, OR This is a private tour of the nursery that Jeannette set up! (Takes 15 minutes from N&M) Enjoy the plants for about 30 minutes or until we are all done Drive to French Prairie Perennials - 14936 3rd Ave Aurora, OR (Takes about 8 minutes from Hydrangeas Plus) Enjoy the plants for about 30 minutes or until we are all done Drive to Fir Point Produce for lunch - 14601 Arndt Rd Aurora, OR - a repeated stop since we all had a great lunch last year. (Takes 6 minutes from French Prairie Perennials) Enjoy the sandwiches! YUM Drive to Barn Owl Nursery - 22999 SW Newland Rd Wilsonville, OR (Takes 14 minutes to drive) Enjoy the plants for about 30 minutes or until we are all done Drive back to Jeannette's house (Takes 17 minutes from Barn Owl)	7/5/2018 11:45 AM

Q13 To achieve its full potential, I think WCMGA could do better/improve the following:

Answered: 68 Skipped: 40

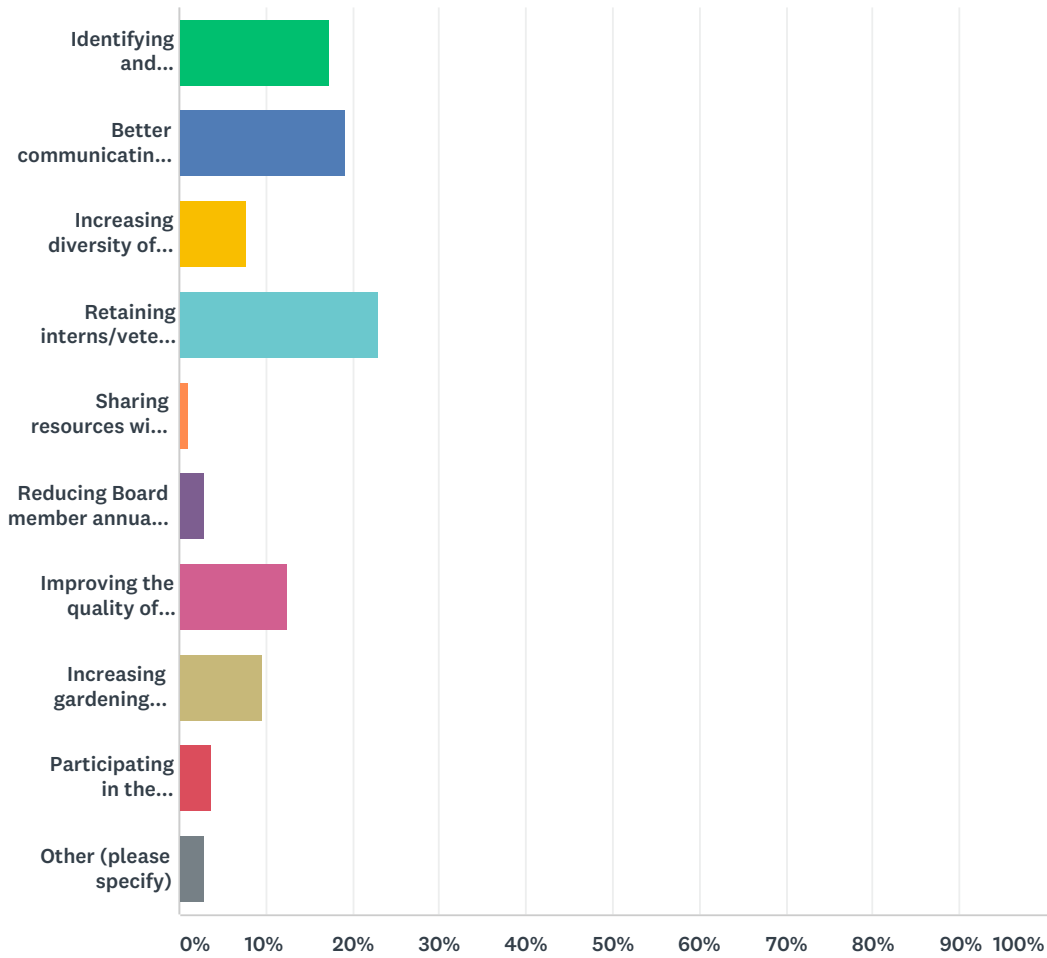

#	RESPONSES	DATE
1	Communicate to the entire chapter, not just by email, but also at chapter meetings, the upsides and downsides of options/decisions - e.g, that closing the demo garden early means less service to west end of the county. Be accurate in information shared - no misinformation. Also, more/better communication within the chapter and with the public	7/11/2018 12:32 PM
2	.	7/11/2018 10:45 AM
3	Not sure	7/10/2018 8:35 PM
4	Reach out to diverse populations and create a welcoming environment for potential master gardeners of all ages and backgrounds	7/10/2018 9:13 AM
5	Try not to spread ourselves too thin. We have a lot of balls in the air and I think we need to focus more on a few activities.	7/9/2018 5:09 PM
6	I don't know enough yet to comment	7/9/2018 9:15 AM
7	Provide more time slots for volunteers that may work full time. Also, reaching out to younger generations.	7/9/2018 7:49 AM
8	I have not been in enough situations that I could give a knowledgeable answer.	7/8/2018 6:25 PM
9	Reaching out to volunteers who have Monday thru Friday jobs	7/8/2018 5:48 PM
10	Have classes on days and times that make it possible for people who work to attend the classes. For instance, a Thursday morning class can't be attended by most people who work.	7/8/2018 1:07 PM
11	School gardens like Bill Klug has done at Lennox School. Mentor at community gardens and have a plot there	7/7/2018 7:16 AM
12	Sending out this survey is a great idea and certainly one way to improve the WCMGA. As a 6-year vegan, and strong proponent of veganism, I wish there was a subset of the WCMGs that focused on edible plants only and could also share favorite recipes, new varieties of fruits & vegetables (dwarf cherries!), new kitchen appliances that make vegan cooking easier & more fun, etc.	7/5/2018 3:55 PM
13	The idea of the nursery tour open to both members and nonmembers might have possibilities. It would be nice to help these small business flourish and help WCMGA's bottom line.	7/5/2018 11:45 AM
14	Develop a higher public profile.	7/4/2018 9:16 AM
15	Getting gardening info to community at large	7/2/2018 4:56 PM
16	Find a way to keep new MGs involved, but I don't have the answer.	7/2/2018 10:52 AM
17	1. Getting out the word of who we are and what we do. I am always so surprised when I speak with folks who have never heard of us. 2. Building more diversity within our organization and within our "client" base. The 60+ years caucasian females are definitely the majority. 3. Encourage more members and interns to get excited and confident about providing educational information to the public (e.g., phone clinic). It is frequently difficult to fill phone clinic shifts. Working the phones not only provides a great service to our community but it offers MG volunteers an opportunity for learning while making connections with fellow MGs.	7/2/2018 9:37 AM
18	Have more opportunities for MGs to share knowledge with community in proactive way (not awaiting a phone call or being approached at a booth). Work in concert with other MGs to teach public classes to school kids, at libraries, museums (similar to classes at learning gardens). There needs to be a way for MGs to ease into public "teaching" as a member of a team or assistant for a class. Where responsibility can be shared but one does not need to know all aspects of the subject; it is less intimidating and more fun. They can be an "expert" at a small slice rather than the entire concept.	7/2/2018 9:16 AM
19	Na	7/2/2018 7:09 AM

20	Inclusion of new and newer members	7/1/2018 12:15 PM
21	Providing feedback on the impact and value of our activities on the community 'clients' we serve. Why should Washington County residents believe what we do is important to them personally as well as the community at large?	7/1/2018 11:50 AM
22	Be transparent as to expectations of those taking the course	6/30/2018 7:13 PM
23	unk	6/30/2018 5:26 PM
24	A little more looking at the underserved populations we can provide information to and a little less steering from the boardroom meetings.	6/30/2018 2:24 PM
25	I think WCMG does a great job communicating and keeping people informed. The thing I think should be changed is more of overall MG issue and that is change the service/ partner hours. If a person wants to do 50 hours gardening or something else & no clinics & coninued with recertification classes that should be OK instead of the specific way they have it set up because no matter where you are people will be asking questions where you will be sharing your mg knowledge. .	6/30/2018 2:07 PM

30	friendly greetings to individual visitors and new MGs as people arrive and leave the meetings. A host/hostess at the door to say hello; we're pleased to see you. Too many long-established groups are considered to be "clicky." Deliberate effort must be made engage visitors and Interns and Vets to others who may have same or similar interests before meetings and during breaks.	6/29/2018 8:06 PM
31	More emphasis on the education we do.	6/29/2018 1:44 PM
32	This group is pretty active, not sure it needs to do much to change. How about bringing inactive folks back into the fold?	6/29/2018 11:54 AM
33	Making decisions without stifling dissent. Promote diveraity	6/28/2018 11:47 PM
34	Regular communication that pulls the many sub-groups together. (feels fragmented to me); be more inclusive - sometimes it feels like a club. Focus on high-level training that helps members continue to gain skills that support the ISU educational mission.	6/28/2018 6:22 PM
35	Transparency in high level communications, eg., decision process for moving demo garden to Rock Creek CC	6/28/2018 4:52 PM
36	improve outreach, make activities open to the public, work on retention of new members, trainees, etc...what is the average length of participation? gatering data as this survey does	6/28/2018 4:13 PM
37	Too soon to comment on this.	6/28/2018 2:45 PM
38	I don't know.	6/28/2018 2:38 PM
39	I think it's difficult to find information about various events. And in the website needs an update.	6/28/2018 1:52 PM
40	Pursue alliances with others in the local food movement.	6/28/2018 12:05 PM
41	More direct contact with public using demo garden or clinic's in Hillsboro and other communities further west.	6/28/2018 10:44 AM
42	More presence in Washington County. We no longer have a booth at the Hillsboro Farmers' Market and we are leaving the Fairgrounds. People are not going to flock to PCC, in my opinion. And no plant sale? Am I reading that right?	6/28/2018 10:06 AM
43	Seeking various sources of donation	6/28/2018 9:36 AM
44	Be better at welcoming interns and other master gardeners by eliminating the old gal cliques that seem to exist.	6/28/2018 8:59 AM
45	nothing known	6/28/2018 8:08 AM
46	Not sure yet. Intern status presentky	6/28/2018 7:46 AM
47	Encouraging new interns to get active participating.	6/28/2018 7:27 AM

48	Communication	6/28/2018 7:19 AM
49	We need input and involvement from the younger generations about the future of gardening as they see it. And less criticism from some very knowledgeable but demanding staff.	6/28/2018 6:20 AM
50	?	6/28/2018 1:03 AM
51	Work on quality improvement and continue to expand educational opportunities for the public,	6/27/2018 11:20 PM
52	N/A	6/27/2018 10:20 PM
53	Support the Mg program financially more.	6/27/2018 10:19 PM
54	We are the best kept secret in the community. We need to tell the community who we are. Get involved with major garden centers by offering a booth to answer questions and concerns on weekends. Do special projects with non-profit organizations in Washington County.	6/27/2018 10:15 PM
55	focus more narrowly on supporting OSU's activities	6/27/2018 9:59 PM
56	Boosting our involvement in school and community gardens.	6/27/2018 9:57 PM
57	Keep an open ear when the Chapter members voice an opinion.	6/27/2018 9:33 PM
58	Everything I have ever been involved with with the MGs has been very well organized and thought thru. I cant think of one thing to speak to.	6/27/2018 9:26 PM
59	Seems to be a sense that OSU extension staff are using volunteers to help with their personal/professional careers and making things more technically complicated to get their stats showing their progress. With this in mind motivation to volunteer for extension activities. Outreach activities at PCC Rock Creek to bring in more life long members (e.g. student membership program).	6/27/2018 9:26 PM
60	Gardening techniques for living in small spaces, as many of our young people do today	6/27/2018 9:14 PM
61	Better leadership - more in tune to member and community needs.	6/27/2018 9:11 PM

63	Not really familiar	6/27/2018 9:10 PM
64	Encouraging new MGs to get involved more after their first year.	6/27/2018 7:15 AM
65	decrease silos and "ownership" attitude of some long time MGs decrease dependence on a few active members for everything	6/26/2018 9:36 AM
66	Communicate purpose and chapter priorities to membership in a variety of ways. Reach out to interns individually.	6/26/2018 9:04 AM
67	N/a	6/26/2018 7:53 AM
68	Continue to develop effective educational programs for MGs and the public. Maybe take "in the garden" series to other organization's gardens or community gardens.	6/26/2018 7:18 AM

6	For Q14 I chose fundraising at top priority because without sufficient operating funds it will be difficult to focus on other priorities. With the change in the "dig and donate" model for our Plant Sale, this next year is crucial for exploring other fundraising ideas. For Q15 I chose better communication about MG activities. I think of this in terms of both within our membership and within the community we serve. Other thoughts: Continue to foster activities within WCMGA that build connections between individual members, the chapter, and the community. People tend to stay with and support organizations where they feel connected and a sense of purpose. Glad to see this survey and looking forward to seeing how the results interplay with the strategic planning. It will be good to have specific goals for WCMGA for the next few years. Road maps are essential!	7/2/2018 9:37 AM

The mainstream volunteers I have worked with are doing what they love, and are trying to make a small impact on the world. Respect them.	6/27/2018 9:33 PM
30	Everything is well done, from the processes in the phone clinic, to classes, to garden work. I have no complaints or suggestions, all is good.	6/27/2018 9:26 PM
31	people getting together to learn and teach is the core of the county MG success. Continual changes to systems of signing up and access to learning seems to discourage involvement from volunteers and clients.	6/27/2018 9:26 PM
